

# DONUT PROFILE CASTORS

## POLYURETHANE TYRED ALUMINIUM CENTERED WHEELS

Available as part of our Heavy Industrial and 500 Series castor ranges, these polyurethane tyred aluminium centred castors require less force to move than castors with comparative wheels. The reactive polyurethane wheel tread is chemically and mechanically moulded on to a lightweight aluminium centre.

## HEAVY INDUSTRIAL SERIES CASTORS

Richmond Heavy Industrial Series castors have been developed to meet the exacting demands of customers wanting castors capable of being transported long distances. Perfect for use in logistics, manufacturing, display and exhibition services. The frame is zinc plated and includes a grease nipple to help maintain smooth operation. Features an industry leading swivel lock & brake design with a sturdy 6mm thick steel construction.

200	50	Poly Aluminium	PU815	Ball	250/200	241	156	R8825	S8824

## 500 SERIES CASTORS

The 500 Series is designed and manufactured for heavy duty applications including low speed, medium weight towing up to a max speed of 6kph. A sealed precision ball race ensures that swivel movement is kept clean and smooth. Richmond's 500 series castors are ideal for high demand industries such as automotive, steel manufacture, and rapid moving production lines.
