

# HIGH/LOW TEMPERATURE WHEELS

Richmond's High/Low Temperature wheels are glass-filled nylon and aluminium wheels suitable for use in bakery ovens, smoke houses, chillers or applications where there is temperature fluctuation and exposure from -30° to +350°C with peaks up to 400°C.

Aluminium wheels AL472 and AL473 are fitted with DU Teflon bushes for noiseless ease of use, while AL471 and AL474 are fitted with aluminium bronze bushes for extremely high temperatures.

All wheels can be fitted to a variety of our castor frames. Please phone for more comprehensive advice.
