

Richmond's skateR provides the ultimate manoeuvrability from low profile trolley/dollies. Used by professionals such as shopfitters, removalists and freight companies, the skateR helps reduce awkward and heavy lifting that can cause injury and costly moving/installation times. The use of a skateR allows easy and accurate positioning of goods.

Features:

- Quality timber deck.
- Available in grooved non slip rubber or plain timber top.
- Ergonomically designed handle for easy handling.
- Range of shapes and sizes available.
- Swivel castors for easy steering.
